## Understanding African-Caribbean Preaching

Carol Tomlin

Studies of preaching and preaching style have up to this point often focus almost exclusively on a western eurocentric understanding of good preaching.

**Preach It** encourages students, both vocational and scholarly, to look beyond these approaches and to learn from traditions with which they are less familiar.

The distinctive style and techniques that African-Caribbean Pentecostal preachers have inherited has been shaped by historical, political and socio-economic factors impacting on black Caribbean people (including clergy).

Using a variety of socio-linguistic and theological approaches, **Preach It** reflects on these techniques, and outlines how preachers across church traditions might learn from them and use them in their own contexts.
